TO: WORKFORCE DEVELOPMENT COMMUNITY

SUBJECT: GREEN GOVERNMENT SUMMIT 2011—CREATING A GREEN ECONOMY

The 2011 Green California Summit, the largest Green government conference and exposition, is taking place at the Sacramento Convention Center April 18 – 20, 2011. Green Workforce Development, Green Economic Development and more will be featured at the Summit. April 18 is a pre-Summit day with in-depth full-day workshops and other special events. April 19 and 20 are the Summit and Expo dates.

The Green California Summit is the place to learn directly from the policy makers, government agencies, workforce development managers, facilities managers, architects, engineers and product suppliers what the path ahead looks like and how to make the most of what's coming. Educational sessions will cover many topics addressing the greening of California's workforce. The Summit, now in its fifth year, will feature over 200 exhibitors, and more than 6,000 attendees are expected. The April 19 program will include the fourth annual Green California Leadership Awards, an event that acknowledges projects exemplifying the best of Green California.

Join with State and local government officials, Green tech companies and organizations to discover your part in the greening of California. Group discounts available; keynotes and exhibition are FREE to registered attendees. For information and to register, go to: www.green-technology.org/gcsummit or call Cindy Dangberg at (626) 577-5700.
